

5th ICAT PROCEEDINGS

TABLE OF CONTENTS

AN OVERVIEW OF OUR APPROPRIATE TECHNOLOGY WORK	p. 6
<u>CONSTRUCTION AND INFRASTRUCTURE</u>	
APPROPRIATE HIGH DENSITY URBAN HOUSING PROTOTYPE FOR THE LAGOS MEGACITY: THE GARDEN ATRIUM APARTMENT	
Olumide Olusanya University of Lagos, (Nigeria)	p. 7
EXTENT OF COMMERCIAL USE OF STABILISED EARTH CONSTRUCTION ALLEVIATING URBAN HOUSING CRISIS IN AFTICA	
Dr. Mohammad Sharif Zami & Dr. Mohammad Babsail King Fahd University of Petroleum & Minerals (Saudi Arabia)	p.13
INSUDEK-MOKETE RIBBED SLABS AND WAFFLE-RAFT SYSTEMS	
Usiri Paul and Kuchena Jabulani Charles Ae-xergy (Pty) Ltd, (South Africa)	p.21
APPROPRIATE ARCHITECTURE FOR SUSTAINABLE DEVELOPMENT: THE CREATION OF ECOLOGICAL FOOTPRINT AND HUMAN DEVELOPMENT INDEX CAPABILITY	
Jeremy Gibberd CSIR, (South Africa)	p.29
SUSTAINABLE EXPLOITATION AND USAGE OF LOCALLY AVAILABLE BUILDING MATERIALS IN WESTERN KENYA	
Robinson Onyango Manguro Ministry of Public Works, (Kenya)	p.37
STRENGTHENING COMMUNITY BASED EROSION PROTECTION PRACTISES WITH ENVIRONMENTALLY-FRIENDLY SISAL GEOTEXTILES	
Abraham B Nyoni and Tafadzwa T Sango National University of Science and Technology (Zimbabwe)	p.45
COMPRESSIVE STRENGTH EVALUATION OF BLENDED CEMENT RICE HUSK ASH (RHA) CONCRETE	
Agbenyeku, E.E. Okonta, F.N. University of Johannesburg (South Africa)	p.53
<u>ENVIRONMENT AND AGRICULTURE</u>	
SOIL HEALTH IS HUMAN HEALTH - AN INDIAN EARTHWORM'S EYEVUEW	
Sultan Ahmed Ismail The New College, (India)	p.61

DETERMINANTS OF ADOPTION OF AGRICULTURAL INNOVATION BY MAIZE FARMERS IN ORIIRE LOCAL GOVERNMENT AREA, OYO STATE NIGERIA

Adebayo, Oyefunke Olayemi and Ayoade Adenike Rebecca p.67
Ladoke Akintola University of technology (Nigeria)

EVALUATING THE ADSORPTION CAPACITY OF SUBCRITICAL CO₂ ON SOUTH AFRICAN COALS USING A SIMULATED FLUE GAS

Major Mabuza and Kasturie Premlall p.71
Tshwane University of Technology (South Africa)

COMPARING CO₂ UPTAKE CAPACITY FOR DIFFERENT SOUTH AFRICAN COAL TYPES FOR LOW-HIGH PRESSURE ADSORPTION

Kasturie Premlall¹, Major Mabuza¹ and Nicola Wagner² p.79
¹Tshwane University of Technology, ²Witwatersrand University (South Africa)

ENERGY PERFORMANCE OF ECO-FRIENDLY R432A AND R433A AS ALTERNATIVE TO R22 IN SUB-COOLING HEAT EXCHANGER REFRIGERATION SYSTEM

Bolaji B.O. and Huan Z. p.87
Tshwane University of Technology (South Africa)

VERMICOMPOSTING OF SUGARCANE BAGASSE AND RICE STRAW AND ITS EFFECT ON GROWTH OF (*PHASEOLUS VULGARIS L.*)

Abdullah Adil Ansari p.96
University of Guyana, (Guyana)

EFFECT OF SODIUM BICARBONATE TREATMENT ON THE NUTRITIVE VALUE OF SOYABEAN STRAW

¹Mpofu IDT, ²Rumosa Gwaze F, ³Makuza SM and ⁴Mugocha Banda PT p.104
¹University of Namibia (Namibia), ²Lovedale Public Further Education and Training (South Africa), ³Chinhoyi University of Technology (Zimbabwe)
⁴University of Zimbabwe (Zimbabwe)

ENERGY

A RAPID SOLAR TRANSITION IS NOT ONLY POSSIBLE, IT IS IMPERATIVE!

¹David Schwartzman and ²Peter Schwartzman p.109
¹ Howard University, ² Knox College, (USA)

TOWARDS A TECHNOLOGY POLICY FOR RENEWABLE ENERGY DEVELOPMENT IN AFRICA: AN INNOVATION SYSTEMS PERSPECTIVE

Ogundiran Soumonni p.117
Georgia Institute of Technology (USA)

FREQUENCY SENSING OF AN ISOLATED PICO-HYDRO POWER GENERATION PLANT USING MAGNETOSTRICTIVE AMORPHOUS WIRE

¹Nderu J. N., ²Kitur C. K., ³Kaberere K., and ⁴Muhia A. M., p.125
^{1,3} Jomo Kenyatta University of Agriculture and Technology,
^{2,4} Kimathi University College of Technology, (Kenya)

SOLAR ENERGY INDUSTRY FUTURE UNCERTAINTY – AN OPPORTUNITY FOR NEW MARKETS AND REFOCUSING

Hattie Carwell, p.133
MAAT Science Village (USA)

SUBJECTIVE WELLBEING AND SUSTAINABILITY: A DATA DRIVEN LOOK AT GLOBAL ELECTRIC ENERGY CONSUMPTION

Marcel J. Castro-Sitiriche¹ and Mandoye Ndoye² p.141
¹University of Puerto Rico, ²Lawrence Livermore National Laboratory, (USA)

GREEN ECONOMY AND INNOVATION

THE ROLE OF COMPUTATIONAL THINKING IN THE 21ST CENTURY

Jackson J. and Moore L. p.149
Jackson State University (USA)

MINING POLICIES IN GUYANA CHANGING THE HINTERLAND

Dalgety W. T. p.156
Guyana Geology and Mines Commission (Guyana)

TREADLE OPERATED *ENSET* (*ENSETE VENTRICOSUM*) SHEAVES DECORTICATING MACHINE

Girma Gebrewold p.164
Adama Science and Technology University (Ethiopia)

IMPROVING AND SUSTAINING RURAL LIVELIHOODS THROUGH RECONFIGURABLE MARULA NUT DECORTICATIONS MACHINE DEVELOPMENT

N Tayisepi¹, and S Mhlanga² p.171
² National University of Science and Technology (Zimbabwe)
¹University of Johannesburg (South Africa)

A STRATEGY FOR SOCIALLY RELEVANT COMPUTING

John Trimble, p.179
Howard University (USA)

COMPUTERIZED INVENTORY MANAGEMENT FOR A MANUFACTURING INDUSTRY: CASE STUDY IN NIGERIA

¹E.S. Owoeye, ²S.B. Adejuyigbe, ³B.O. Bolaji and ⁴A.F. Adekoya p.187
1, 2, 3, 4: Federal University of Agriculture, Abeokuta
4: Federal University of Agriculture, Abeokuta (Nigeria)

e-DIABETIC DIETARY SYSTEM FOR THE RURAL COMMUNITY

¹Nyathi T., ²Dube S. and ³Sibanda K. p.194
^{1,2,3}National University of Science and Technology (Zimbabwe)

**GREEN ECONOMY AND INNOVATION: COMPRESSIVE STRENGTH
POTENTIAL OF BLENDED CEMENT CASSAVA PEELS ASH (CPA) LATERIZED
CONCRETE (LATCON)**

Agbenyeku, E.E. Okonta, F.N. p.200
University of Johannesburg (South Africa)

KNOWLEDGE TRANSFER

**ICT EDUCATION IN SWAZILAND SECONDARY SCHOOLS: OPPORTUNITIES
AND CHALLENGES**

Madzima K, Dube E.L and Mashwama P. M. p.210
University of Swaziland (Swaziland)

**INTEGRATING TECHNOLOGY INTO THE TEACHING AND LEARNING OF
MATHEMATICS**

Talley J., Kwembe T., Wafo Soh C., Gentry R., Chen D. and Livingston C. p.218
Jackson State University and University of Mississippi (USA)

**PROMOTING INTERNATIONAL VISIBILITY AND COLLABORATION OF
WOMEN FACULTY FOR STEM-SBS STUDENT ADVANCEMENT**

Moore, L. p.225
Jackson State University (USA)

**KNOWLEDGE AND TECHNOLOGY TRANSFER THROUGH OPEN AND
DISTANCE LEARNING MODE**

Chigunwe Gilliet and Gate Tsitsi p.232
Zimbabwe Open University and Bindura University of Science Education (Zimbabwe)

**A NOVEL WAY TO INTRODUCE UNDERGRADUATE ENGINEERING
STUDENTS TO RESEARCH AS A MENTORING RESOURCE AND ENHANCING
THEIR EMPLOYABILITY SKILLS**

Peter Bofah, Mohamed Chouikha p.239
Howard University (USA)

BIOMIMICRY IN CIVIL ENGINEERING EDUCATION

Brian Stephenson p.246
Howard University (USA)

**INDIGENOUS KNOWLEDGE SYSTEMS – A POTENTIALLY DEEP
APPROPRIATE TECHNOLOGY RESOURCE**

John Tharakan p.253.
Howard University (USA)

POLICY AND STANDARDS

**TECHNOLOGICAL CULTURAL DISCONNECTS, IMPACTS ON EQUALITY: USA
LEGAL DISCOURSE**

Angela M. Kupenda p.261
Mississippi College School of Law (USA)

**ENABLING ICT TECHNOLOGY FOR ZIMBABWEAN SCHOOLS: A
CONTINUOUS EFFORT BY THE MINISTRY OF EDUCATION**

Gate Tsitsi¹ and Chigunwe Gilliet² p.268
1Bindura University of Science Education 2Zimbabwe Open University (Zimbabwe)

**SURVIVAL ETHICS IN THE REAL WORLD: A GLOBAL MODEL FOR
EXPERIMENTAL ETHICS**

Verharen C., Tharakan J., Bugarin F., Fortunak J., and Middendorf G. p.276
Howard University, (USA)

**LINKING RESEARCH STRATEGIES WITH POLICY MAKING AND SOCIAL
ACTION: AN ANALYSIS OF PROJECT DESIGN TO DEVELOP AN mHEALTH
SERVICE DELIVERY PACKAGE**

Gada Kadoda, p.284
Epidemiological Laboratory (Sudan)

WATER AND SANITATION

A Head-Driven Algorithm for Analysis of Low Pressure Water Distribution Networks

Stephen Nyende-Byakika and Julius M. Ndambuki p.292
Tshwane University of Technology (South Africa)

**SURFACE AND SUBSURFACE ASSESSMENT OF URBAN HAND DUG WELLS IN
AKURE, NIGERIA**

Oluwapelumi.O.Ojuri and Felix N. Okonta p.300
University of Johannesburg (South Africa)

**LOW COST REMOTE CONTROLLED DRIP IRRIGATION MANAGEMENT
SYSTEM FOR SMALL SCALE FARMERS**

Nyathi T., Nleya S.M and Chilumani K.R p.308
National University of Science and Technology (Zimbabwe)

An Overview of Our Appropriate Technology Work

What is Appropriate Technology? Public education on ‘what is appropriate technology’ is central to our mission as the International Network on Appropriate Technology (INAT). The cornerstone of our platform on appropriate technology (AT) is that AT is ‘technology to empower people’. Focusing on technologies that are human-centered promotes: better health, better education, improved access to clean water, necessary shelter and safe food, as well as transportation and energy solutions that do not cause ecological imbalance. The more the world population is empowered the more the potential of the world’s human resources can be utilized. The broader the world population is empowered, the better equipped society is to exercise democracy. The nature of ‘appropriate technology’ is technology that is culturally sensitive yet ecologically sound and economically sustainable.

What we do: The INAT group currently comprises academics and professionals from the USA, Trinidad and Tobago, Guyana, India, Senegal, Ghana, Nigeria, Kenya, Rwanda, Ethiopia, Sudan, Zimbabwe, Botswana, Namibia, Swaziland, and South Africa, who are united in their commitment to enhancing, broadening and connecting appropriate technology education, research and practice with the undergirding philosophy of empowering local communities in enhancing and controlling technologies to improve their quality of life.

Origins of INAT: Our efforts began in 1998, with a workshop on appropriate technology and the formation of the Howard University Project on Appropriate Technology (HUPAT). Since then a dedicated and growing interdisciplinary team of Howard faculty has brought together exemplars of AT development and implementation at workshops, symposia and conferences. This has provided faculty and students with opportunities and projects to engage in AT study and research. The team of Howard faculty, in partnership with their international colleagues and partners, has committed themselves to a continuing series of conferences, workshops and symposia to spread the word on the relevance and necessity of appropriate technology. A few of the national and international initiatives and activities are listed below

- 1998 – AT Workshop at Howard University
- 1999 – One Day AT conference at Howard University
- 1999- A panel on “Appropriate Technology in Science and Engineering Curriculum” at African-African American Summit in Accra Ghana
- 2001 – Lecture on “Appropriate Technology for National Development” at National Conference on Leveraging Technology in Business, and Education, Windhoek, Namibia
- 2004 – 1st International Conference on Appropriate Technology (ICAT) in Bulawayo, Zimbabwe – Theme: AT for Land Management
- 2006 – 2nd ICAT in Bulawayo, Zimbabwe – Theme: AT for Public Health
- 2007 – TV special and newspaper interviews on Appropriate Technology, Guyana
- 2008 – One day regional symposium on appropriate technology, University T&T, Trinidad
- 2008 – Guest lecture on Appropriate Technology at University of Khartoum, Sudan
- 2008 – 3rd ICAT in Kigali, Rwanda – Theme: Energy and Climate Change
- 2009 – 1st Howard University AT Symposium, Washington, DC
- 2010 – 2nd Howard University AT Symposium, Washington, DC
- 2010 – 4th ICAT –Accra Ghana, Theme: AT for Water and Sanitation
- 2010 – 1st workshop on Socially relevant computing – Accra Ghana
- 2011 – 3rd Howard University AT Symposium, Washington DC
- 2011 – 2nd workshop on Socially relevant computing – University of Pretoria, South Africa
- 2012 – 1st Workshop on knowledge management capacity in Africa (co-organizer), Khartoum, Sudan
